New Year Greetings to All,

A new year has finally arrived. Quoting from the sign at our local gas station "Good riddance 2020, Welcome 2021", I think is the sentiment that most of us would agree with. During these times we have to look very hard at how we live our lives. Simplicity takes on a new perspective and tolerance becomes a much needed virtue to get from day to day. If nothing else, the pandemic and all of the fallout from it, has taught many of us to slow down and contemplate the really important things that matter in our day to day experiences. We hope you have been able to focus on some of the simple blessings in your life too. It's important to greet each day with appreciation and optimism. So it is with renewed enthusiasm, confidence, and appreciation that we step forward into a New Year and a new season.

This past season Parkway has gained many new customers from the referrals you have passed on to us. We truly appreciate your vote of confidence and trust in our service and our company. We promise to continue, to the best of our ability, the level of customer service you have come to expect from us. Thank you for your continued business and patronage.
